D3035 – (35') FRONT FOLD 13' CENTER

D3035 – (35') DOUBLE FOLD 15' CENTER

D3040 – (40') DOUBLE FOLD 15' CENTER

The **D3000 Series Toolbar** is built to meet individual needs. Front to back rank is 30", which is the widest in the industry. Heavy construction of 6 x 4 rectangular tube gives you the strength you need in today's environment.

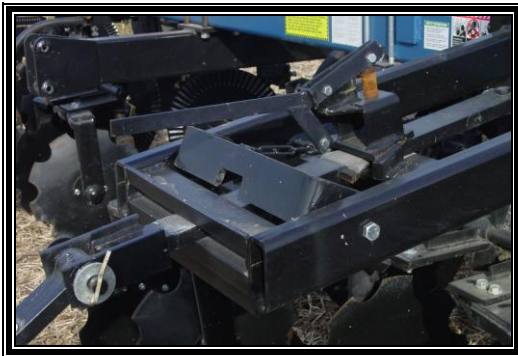

This unit features the versatility of handling 15" to 36" row spacing. Extra long wing lift cylinder slot so that wing can follow contour of ground with removable spacers to adjust wing flex. Hydraulic folding wings fold-over 45 degrees and gives you more road transport clearance.

Options available are in-line transport with screw type gauge wheels, Raven metering systems, ground driven pumps, manifold systems, disc sealers and coulters.

In the inline transport position showing screw type transport wheels, wing lockup with tow tongue attached

Pull out and swing away wagon hitch

3 point hook-up

Disc sealers and coupler options

Raven system with multiple shutoffs and ground drive options
