Stainless Steel for Banding Fertilizers

- Permits banding fluids at high rig speeds.
- Large orifices with no internal obstructions permit non-clogging suspension applications.
- Lower drift potential.
- See page 125 for liquid density conversion factors.
- For TP tips use Quick TeeJet cap and gasket 25608-1-NYR.

**How to order:**

Specify nozzle number and material. Example: H1/4-U-SS0010 Stainless Steel

**Note:** Always double check your application rates. Tabulations are based on spraying water at 70°F (21°C). See pages 124–140 for useful formulas and other information.
